

POWERTAP

Electronic Vehicle (EV) Charging Solution with IoT based Charging Management System (CMS) and a mobile application for user to locate and operate chargers.

ABOUT US

We are building a comprehensive network of charging stations across the country that will enable the end user to locate the chargers and power their electric vehicles wherever they go thereby ensuring a consistently simple and seamless experience.

We offer solutions for corporates, multi-unit residential complexes, retail businesses, private parking areas and we also offer access to thousands of charging stations across the country.

POWERTAP ON CLOUD

CHARGING MANAGEMENT SYSTEM (CMS)

PT On Cloud is a cloud-based platform consists of a variety of modules such as: **Operations Management, Smart Energy Management, Billing Management, Driver Self-service Tools.**

It enables EV charging service providers to manage every aspect of EV charging so they can optimize their EV charging network operations, deliver an exceptional EV charging experience, and monetize their EV charging business.

MOBILE APP

An **EV charging app** is a mobile application which lets **EV drivers take control over their EV charging experience**. Using the app, EV drivers can get real-time information about chargers' location and availability, plan their route and navigate to a charger, reserve a charger, find charger point of interest and get access to updated information on billing plans and charging transactions.

BE A POWERTAP PARTNER

ARE YOU INTERESTED IN INVESTING IN THE EV CHARGING INFRASTRUCTURE?

Investing in the future of electric vehicles is now easier than ever. Our streamlined process is designed to make it simple for you to become a part of our EV charging network. From initial consultation to installation and beyond, we'll be there to guide you every step of the way. Learn more about the process below.

We offer a comprehensive range of services, from site selection to installation and maintenance, to help you set up a **profitable** and **reliable** charging station.

POWER TAP OFFERS A PARTNERSHIP MODEL WHERE WE PROVIDE

Initial Discussions and Consultations

We understand your needs and goals and help you determine the best location and type of charging station for your needs.

Site Evaluation and Selection

We'll help you select the best location and conduct a thorough evaluation to ensure it meets all necessary requirements.

Installing and Commissioning

Our team will handle the installation and commissioning of the EV station to ensure it is ready as quickly as possible.

Ongoing Support and Maintenance

We'll provide ongoing support and maintenance to ensure your charging station is always running at peak performance.
